

E-Glass Roving for BMC

Details

E-Glass Roving for BMC

E-Glass Roving for BMC is compatible with phenolic resin.

It is designed for reinforced compression and injection molding parts.

Product Characteristics

1. Good gathering , low static , low fuzz??good flowability
2. Uniform dispersion in resins , good processing characteristics
3. Excellent mechanical properties
4. Good combination with resins

Product Parameter

Production Code	Filament Diameter (um)	Linear Density (Tex)	Moisture (%)	LOI (%)	A short cut length (mm)
EW610	13	300	≤0.10	1.65±0.15	3、 6、 12、 18、 24
EW636	13	300	≤0.10	1.90±0.15	3、 4.5、 6
