

E-Glass Assembled Roving for SMC

Model:E-Glass Assembled Roving for SMC

Details

E-Glass Assembled Roving for SMC is compatible with reinforced unsaturated polyester resin , vinylester resin and so on . It is mainly used to produce automotive parts , doors , chairs , bathtubs , SMC water tanks and sports instruments etc.

Product Characteristics

1. Good choppability and good gathering
2. Good dispersion and lay-down
3. Low static , excellent mechanical properties
4. Excellent mold flowability

Product Parameters

Product Code	Filament Diameter	Linear Density	Moisture Content	Combustible Matter Content	Stiffness	Roll Weight
EW530	13	2400、4800	≤0.10	1.20±0.15	18±0.5	EW530
EW535	13	2400、4800	≤0.10	1.20±0.15	18±0.5	EW535
EW511	14	2400	≤0.10	1.20±0.15	18±0.5	EW511
