

E-Glass Assembled Roving for Chopping

Details

E-Glass Assembled Roving for Chopping

E-Glass Assembled Roving for Chopping is compatible with unsaturated Polyester , Vinylester resins etc.

E-Glass Assembled Roving for Chopping is mainly used in FRP pipes molding .

Product Characteristics

1. Easy chopping and good gathering
2. Excellent dispersion
3. Good anti-static properties
4. Moderate wet-out in resin , good compatibility with resin

Product Parameter

Product Code	Filament Diameter (um)	Linear Density(Tex)	Moisture Content (%)	Combustible matter content (%)	Stiffeness (mm)	Roll Weight (Kg)
EW413	12	2400	≤0.10	1.15±0.1	18±0.5	EW413
EW412	13	2400	≤0.10	1.15±0.1	18±0.5	EW412
