

E-Glass Assembled Roving for Chopped Strand Mat

Details

E-Glass Assembled Roving for Chopped Strand Mat

E-Glass Assembled Roving for Chopped Strand Mat is compatible with Unsaturated Polyester (UP), Vinylester (VE) and Epoxy (EP).

It is mainly used in the production of powder and emulsion bonded Chopped Strand Mat and also Stitched Combo Mat . It can be used in FRP boats , sanitary apparatus and so on .

Product Characteristics

1. Good choppability
2. Excellent dispersion , no matchstick
3. Good anti-static properties
4. Good wet-out in resin

Product Parameter

Product Code	Filament Diameter (um)	Linear Density (Tex)	Moisture Content (%)	Combustible matter content (%)	Stiffness (mm)	Roll Weight (Kg)
EW937	12	2400	≤0.10	0.65±0.15	17±0.5	EW937
EW930	13	2400	≤0.10	0.40-0.70	18±0.5	EW930
EW938A	12	2400	≤0.10	0.40-0.70	18±0.5	EW938 A
EW932	13	2400	≤0.10	0.60±0.15	18±0.5	EW932
