

## PVC Co-extrusion Foam Sheet

### Product Description

PVC Co-extrusion Foam Sheet is a strong and durable rigid foam PVC sheet with a high gloss finish, giving it a high end appeal. The co-extruded glossy surface gives improved hardness and stability over standard foam PVC.

PVC Co-extrusion Foam Sheet-Technical Properties	
Base Polymer	Polyvinyl chloride PVC
Smell	Odourless
Water Absorption	≤1%
Water Solubility	Insoluble
Tensile Strength	> 18MPa
Elongation at Break	<20%
Impact Resistance	> 15kJ/m <sup>2</sup>
Bending Strength	> 16MPa
Shore Hardness	80
Screw Holding	1100N
Vicat Softening Temperature	>70°C
Service Temperature	-20°C to +60°C
Fire Behavior	V-0 (pass)
TVOC	ND (passed)
Environment	JUNRAO PVC is recyclable and complies with RoHs

PVC Co-extrusion Foam Sheet-Specification	
<b>Size:</b>	1220x2440mm(Other sizes are available to order subject to minimum quantities.)
<b>Thickness:</b>	3mm-25mm
<b>Density:</b>	0.5-0.8g/cm <sup>3</sup>
<b>Color:</b>	White
